ABOUT US

Our Experience as permitted the delivery of our products in every part of the world, our force is the possibility to offer a customized product for all client's request.

Our Company born with the productions of self-propelled trailer for Marinas & Shipyard, able in a few years to become leader in Italy and Europe Market in the planning of more and more varied and efficient lifting and transport for the nautical sector. Our strength is also dictated by the variety of products for boat lifting & transport such as:

Self-Propelled Trailers

Towed Trailers

Amphibious Trailers

Self-Propelled trailers able to work in the street

ABI-TRAILERS S.r.l. was born in 2002 thanks to Mr. Giorgio Bottero's willing (the man who invented and patented this kind of trailers) to create a leader company in the manufacturing, marketing and operation of boat trailers.

ABI-TRAILERS immediately dominated the market thanks to Mr. Bottero's wide experience and expertise, supported by a first-rate technical and production team coming mostly from the boat handling sector. Their joint efforts enabled a continuous and well balanced company and sales growth.

PARKING CAPABILITIES

Without self propelled trailer

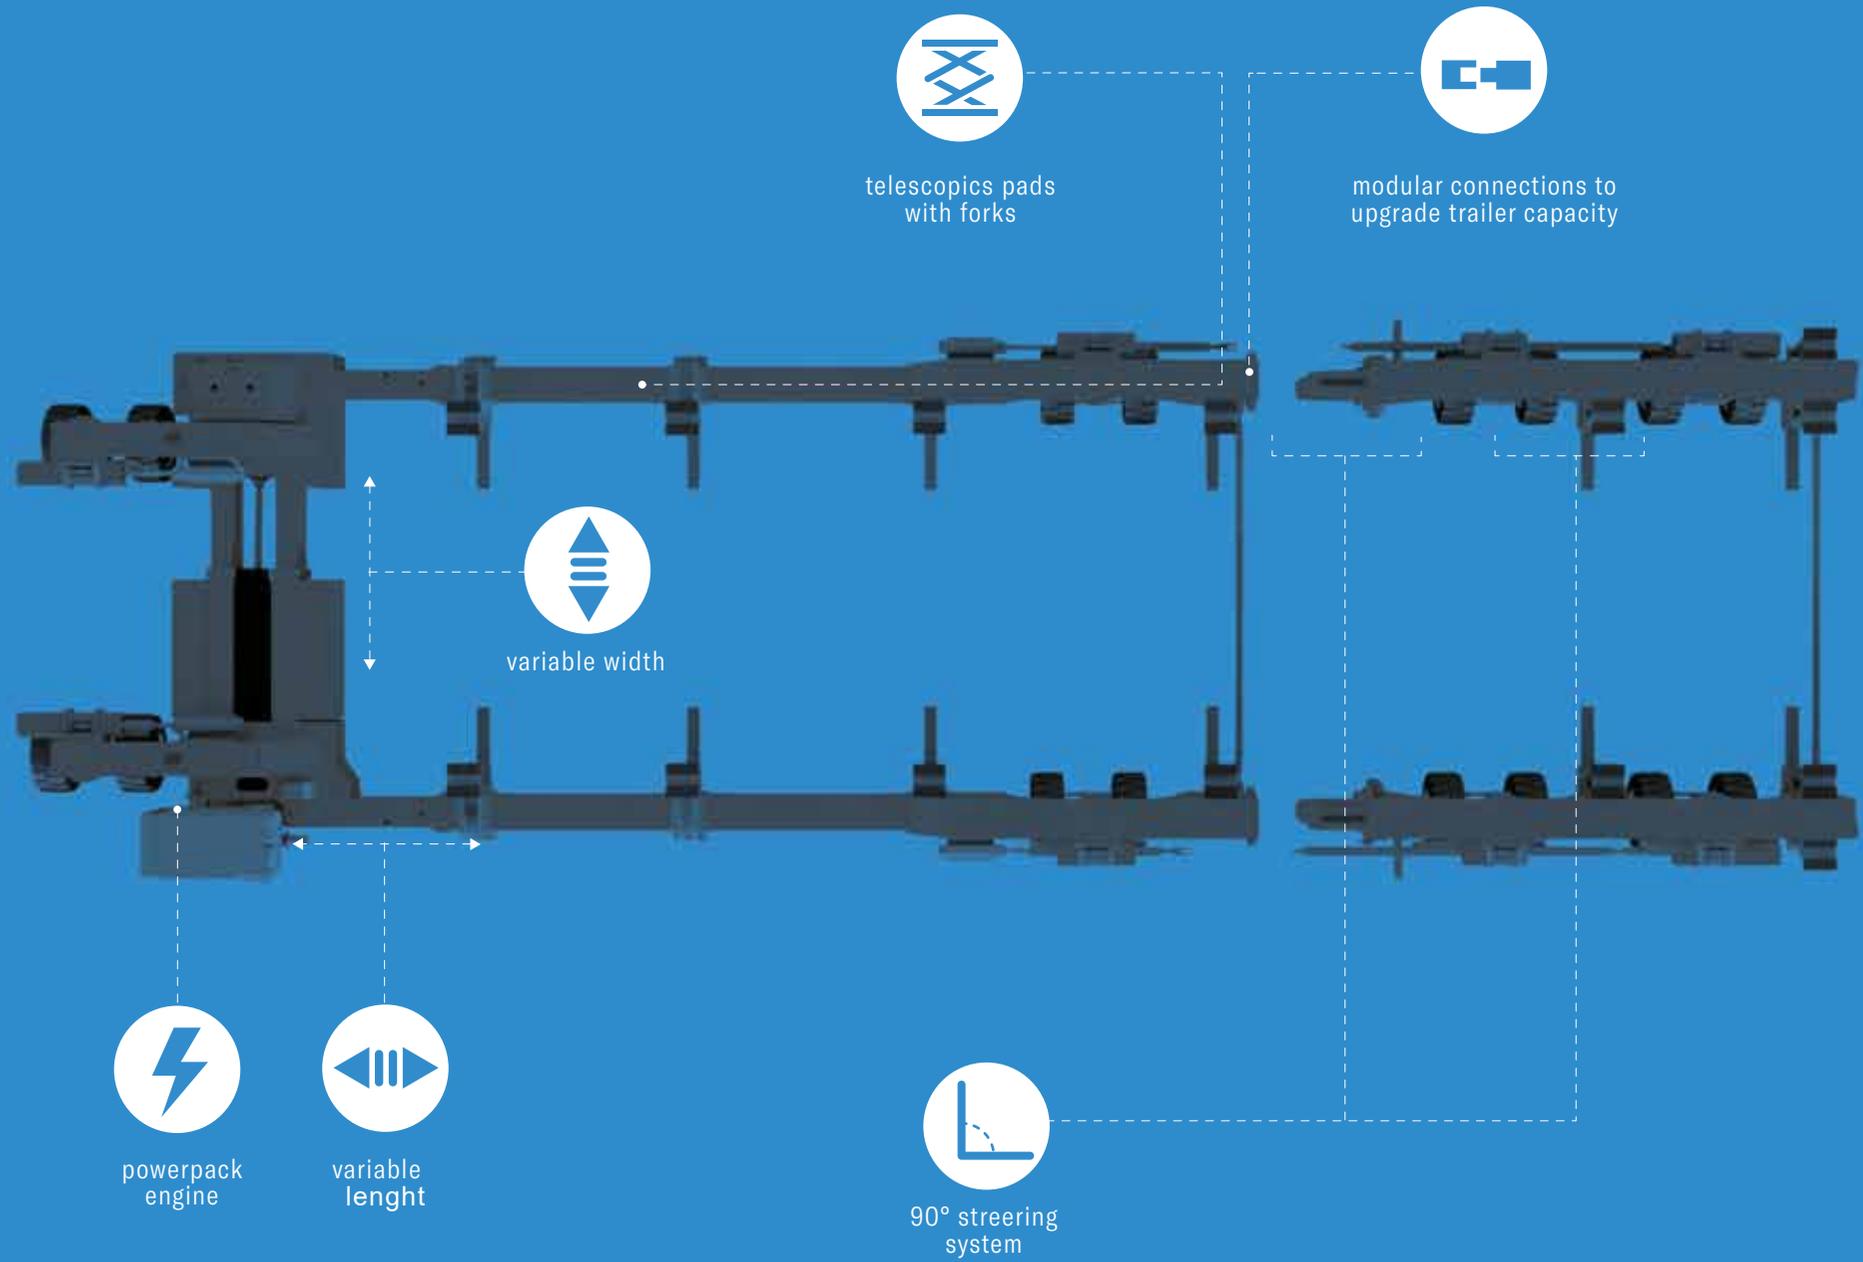

With our self propelled trailer

These trailers are the best solution in order to exploit the spaces in shipyards as well as in the marinas, since they allow to place the boats in contact with each other, which is impossible with Travelifts and rather difficult and dangerous with traditional tow trucks. The operational principle is extremely simple: the trailer, having a U-shape in low position, is placed under the boat and, after putting the lifting supports in contact with the hull, is then lifted thus loading the boat, which is laid to the ground again in the desired position with the same procedure without using a tow truck.

FUNCTIONS

MBT 100

MBT ROAD 250

AQUATIC 50

KT 25

MBT 30

MBT 25 - JIB CRANE 25
