

ASCOM cranes can ALL be custom engineered and designed to meet and support YOUR specific requirements.

Depending on your purpose, you can choose from the following type of jib cranes:

- With electric or hydraulic power;
- With a lifting capacity from 10 to 100 ton;
- With 1 hoist or 4 independent hoists.

#### Main features:

- Special coating for marine environment;
- Load limiter;
- 360° electrical rotation, controlled by inverter;
- Self-centering electric or manual trolleys;
- Independent and/or synchronized lifting;
- Proportional radio remote control;
- Anchoring system.
